

Full Stack Developer

Phoenix, AZ

We marry design and engineering language in ways that produce impactful and memorable experience journeys. We partner all the way to continuously improve our clients' digital maturity. Our Studio network brings the optimal combination of skill, scale, and cost for each stage of the product development lifecycle. And to do this we need great transformational people that want to impact the projects and organizations that they work with.

We are looking for an exceptional Full Stack Developer to work with our cross-functional team, and join our world-class community of talented experts. Core to this need are expertise in:

- Gathering functional requirements, developing technical specifications, and project & test planning
- Designing/developing web, software, mobile apps, prototypes, or proofs of concepts (POC's)
- Strong JAVA , Spring, backend, web services, Angular/React Hands on Knowledge.
- Strong Design Patterns knowledge
- Act in a technical leadership capacity: Mentoring junior engineers, new team members, and applying technical expertise to challenging programming and design problems
- Roughly 70-85% hands-on coding
- Resolve defects/bugs during QA testing, pre-production, production, and post-release patches
- Work cross-functionally with various product management, QA/QE, various product lines, or business units to drive forward results
- Contribute to the design and architecture of the project
- Experience with Agile Development, SCRUM, or Extreme Programming methodologies
- Experience with the entire Software Development Life Cycle (SDLC)
- 1+ years of experience with web services (consuming or creating) with REST or SOAP
- Solid communication skills: Demonstrated ability to explain complex technical issues to both technical and non-technical audiences
- Strong understanding of the Software design/architecture process
- Experience with unit testing & Test Driven Development (TDD)

We are a thriving Community of top technology talent that is globally connected. We Engage, Make, Run and Evolve the technology that makes many brands that you know and love. So let's take this journey together. No matter where you are on your digital career roadmap, we can help you grow and have fun doing it.
